Since I won't be there, it is fine with me if someone wants to give the CERCLA/EPCRA Ag rule update.

We are waiting for OAR's completion of the NAEMS EEMs to be completed since we are considering those values in the proposed rule. Other than what is in the Regulatory Agenda, we don't have any additional information to provide on the schedule.

All - In follow-up to our pre-meeting last week, I've refined our draft agenda for the subject meeting next week. I need to send this to the enviros today or tomorrow so please let me know today if you have any comments.

Allison W. – are you comfortable saying a few words about some of the ag stakeholder work OWM is doing? Or is there anything other OWM topic I should add?

Thanks,  
Kathy
